GATE

Purpose

■ Public (external)

- Information
- Transparency
- Single Point of Access
- Feedback

■ DelDOT (internal)

- Up to date information
- Efficient Decision Making
- Single Point of Access
- Better projects

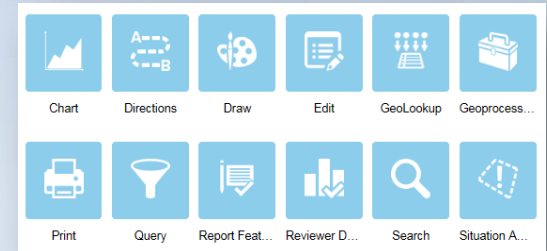

What Is GATE?

- New DelDOT web mapping application
- Maintained by Division of Planning
- Utilizes exiting data sets that managed and maintained by other Agencies and Divisions
- Provides access to up-to-date GIS transportation information across multiple platforms
- Leverages DTI FirstMAP GIS enterprise and ESRI ArcgisOnline cloud-based mapping platform

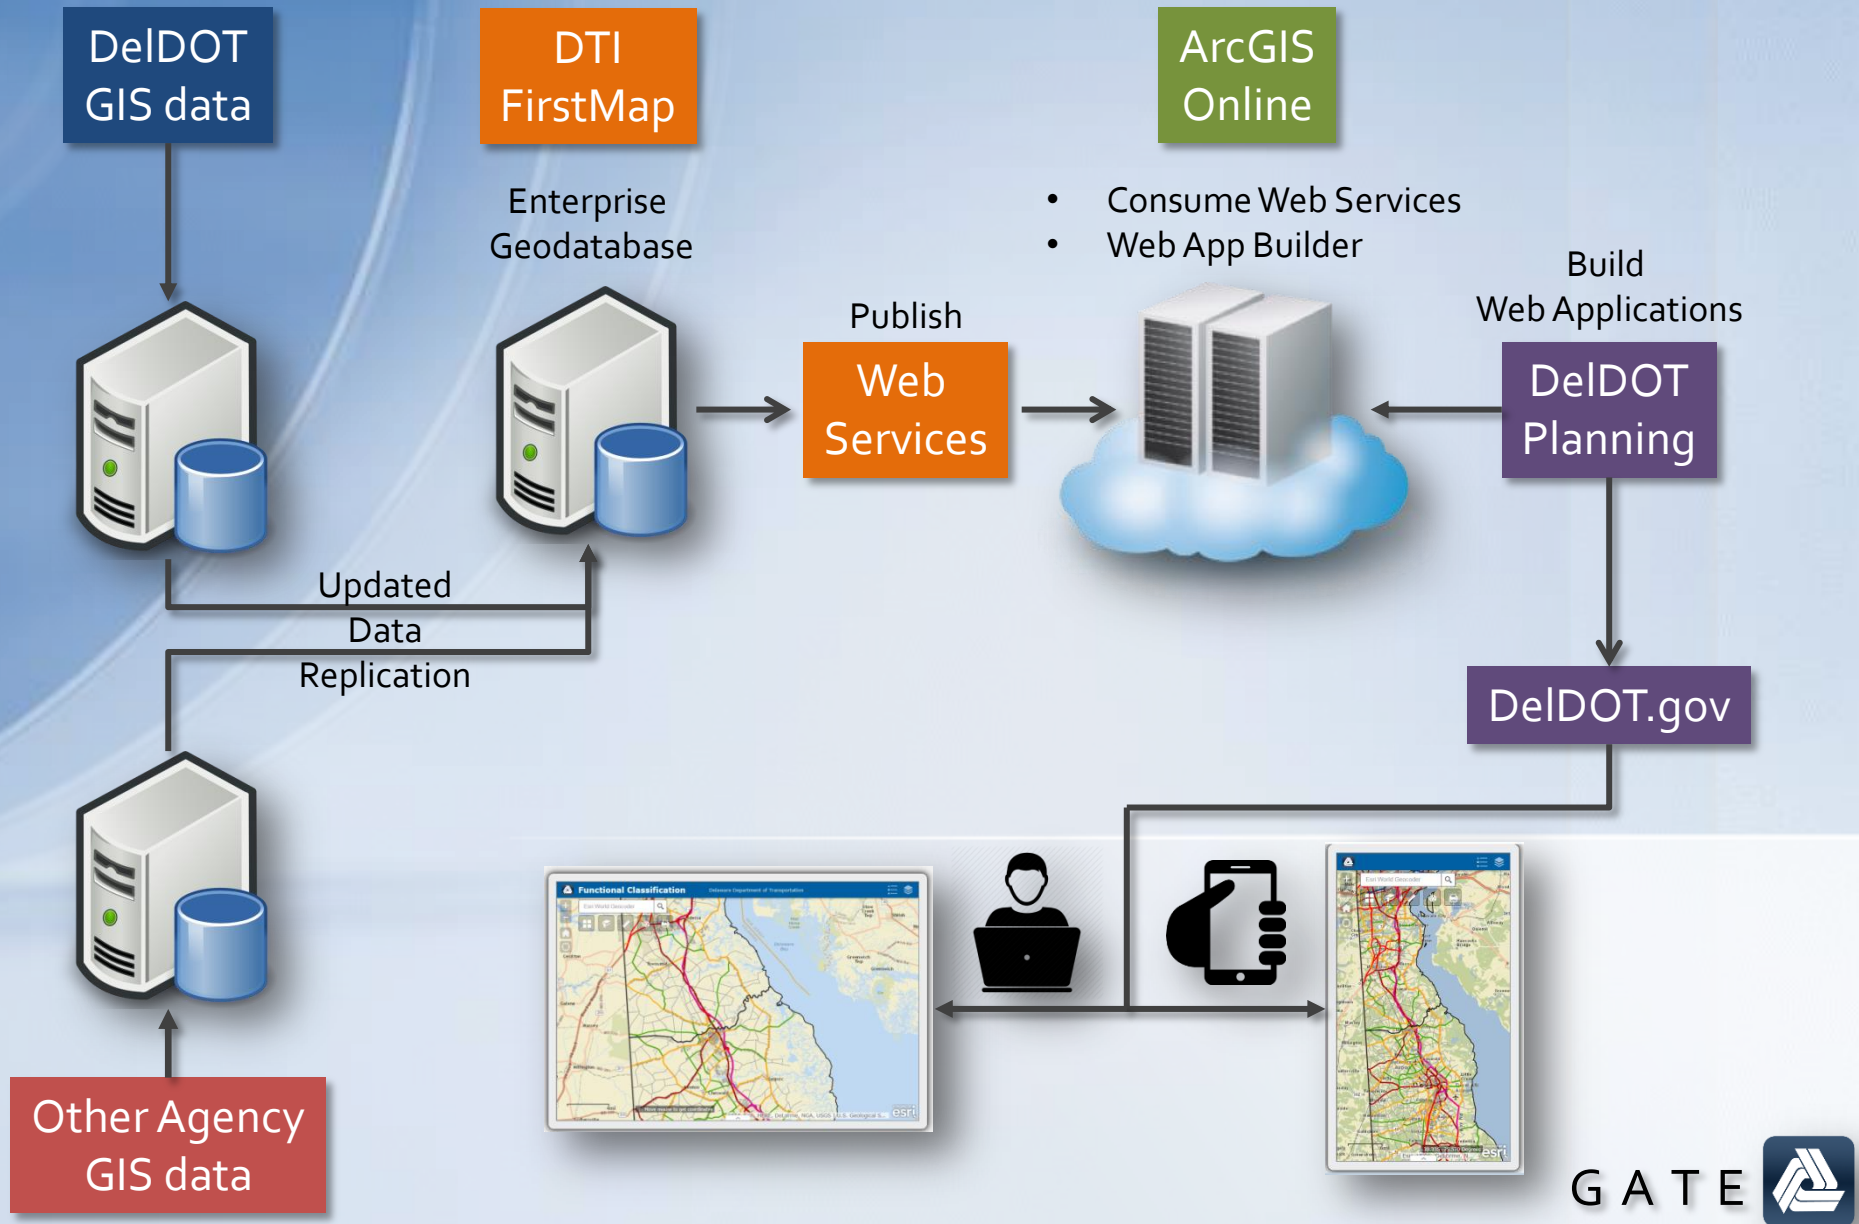

What Is GATE? (cont.)

- Contains “Widget” tools to help users display, query and analyze data
- Public and Employee facing versions
 - Public - Launched in December 2015
 - Internal – currently in development

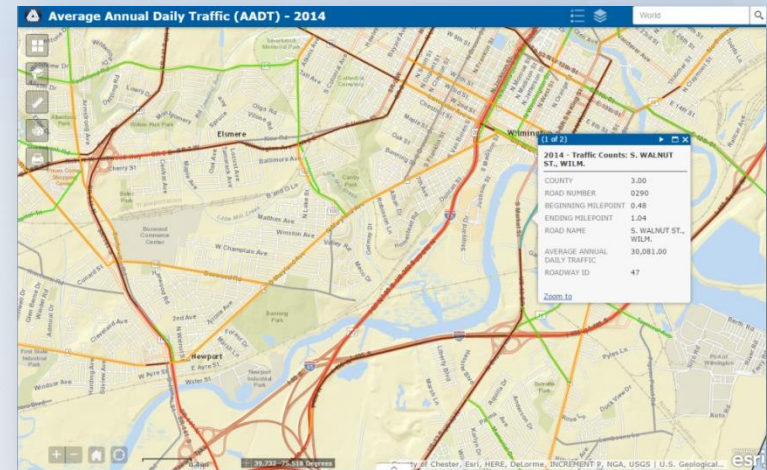

How Does GATE Work?

Public Version

- Layers
 - Aeronautics
 - Bridges
 - Capital Projects (coming soon)
 - Evacuation Routes
 - Functional Classification
 - Legislative Districts
 - Paving Program
 - Rail
 - Traffic Counts
 - Trails & Pathways
 - Transit
 - State Strategies

Delaware Airport System

Delaware Department of Transportation

Switch to builder mode

Summit Airport

Summit Airport is a privately owned public use airport, located five miles north of Middletown, Delaware. The facility is noted for outstanding avionics, major engine maintenance and airframe repair for fixed-wing and rotary-wing aircraft of virtually all types. The airport also features quality Fixed Base Operator (FBO) Services services.

Map of Delaware showing airport locations. Numbered markers 1 through 10 indicate various airports across the state, including Summit Airport, New Castle Airport (ILG), Smyrna Airport, Delaware Airpark, Chandelle Estates Airport, Jenkins Airport, DeIDOT Helistop, Civil Air Terminal - Dover AFB, and Chorman Airport.
